

tempera-
the high-tem-
Arabia and adaptable
projects in different scenari-
can be perfectly paired with DC/DC
PCS energy storage inverters, and relevant
micro-grid system equipment, ensuring seamless cover-
age of off-grid applications in photovoltaic-ener-
gy-storage-diesel hybrid systems.

The image features a white background with several large, solid black geometric shapes. A prominent diagonal line runs from the bottom-left towards the top-right. To the right of this line, there is a vertical black bar. In the bottom-left corner, there is a black triangle. In the bottom-right area, there is a black trapezoidal shape. The text is positioned in the middle-left area of the page.

JKS3440AL is a fully integrated, scalable, turnkey energy storage system for C&I and utility applications. Utilizing LFP battery technology th
